This Legal Notice / Legal Information page is published for identification and transparency purposes. It provides core information about the provider of the “DashaMap” service, official contact channels, and a structured index to the legally binding documents governing access to and use of the Service.

This page does not replace, amend, or override the Terms of Service (“ToS”), Privacy Policy, Cookie Policy, Acceptable Use Policy (“AUP”), Astrological Disclaimer, AI Transparency & Compliance Notice (“AI Notice”), Refund / Billing / Subscription / Credits Policy, Data Processing Addendum (“DPA”), or any other binding legal document applicable to the Service. Contractual rules, user obligations, limits, and remedies are defined in those documents and in any applicable Order Form or written agreement.

1. Service Provider (Legal Entity)

The DashaMap Service (the “Service”) is operated and provided by:

Legal entity	GLOBAL MOUNTAIN GROUP LLC
Registered address	30 N Gould St #47047, Sheridan, Wyoming 82801-6317, U.S.A.
Company ID	2023-001208525
Official Email	info@globalmountain.group
Website	www.globalmountain.group

“DashaMap” is a product/platform of GLOBAL MOUNTAIN GROUP LLC (also referred to as the “Company,” “Provider,” “we,” “us,” or “our” in the governing documents).

2. Purpose and Scope of This Page

This page is intended to:

- identify the legal entity responsible for operating the Service;
- provide the official contact channel(s) for legal, privacy, security, and operational communications;
- publish a clear “legal center” map linking to the governing legal documents;
- provide limited, non-contractual informational notices regarding authenticity of communications, intellectual property identifiers, and reporting procedures.

Unless expressly stated, this page:

- is not a standalone contractual offer;
- does not modify your rights or obligations under the ToS or other governing documents;
- does not create any new warranties, guarantees, service-level commitments, or refund rights.

3. Official Channels, Domains, and Authenticity of Communications

3.1 Official contact channel

The official channel for legal notices, privacy requests, security reports, and general communications is: info@globalmountain.group

Recommended subject lines:

- “Legal Notice - DashaMap”
- “Privacy - DashaMap”
- “Security Report - DashaMap”
- “AUP Report - DashaMap”
- “DPA - DashaMap” (for business inquiries, where applicable)

3.2 Operational communications

Operational communications may occur via email and/or in-app notices within the Service, depending on the feature and plan. Users remain responsible for maintaining a valid, accessible, and up-to-date email address associated with their account.

3.3 Official domains and anti-impersonation statement

Communications, links, and requests not originating from official Company-controlled domains or verified in-app notices may be fraudulent. The Company may not respond to requests sent to unofficial channels, social accounts, or unverified third-party contacts.

3.4 User duty to verify authenticity

Users must independently verify the authenticity of any communication purporting to be from DashaMap before:

- sharing credentials or authentication codes;
- providing sensitive information;

- clicking unusual links requesting login/payment;
- sending funds or making changes to billing details.

If you have doubts, contact info@globalmountain.group and request confirmation.

3.5 Phishing / spoofing notice

Third parties may attempt phishing, spoofing, or impersonation. The Company's responsibility is governed by the ToS and applicable law. This page is not intended to limit any mandatory rights or non-excludable legal protections.

4. Governing Legal Documents and Where to Find Them

4.1 Legal Center index

Access to and use of the Service is governed by the following documents, where published and applicable:

- Terms of Service (ToS)
- Privacy Policy
- Cookie Policy
- Astrological Disclaimer
- Acceptable Use Policy (AUP)
- AI Transparency & Compliance Notice (AI Notice)
- Refund / Billing / Subscription / Credits Policy
- Data Processing Addendum (DPA) (for business/white-label or enterprise relationships, where applicable and/or available upon request)
- Any Order Form, enterprise agreement, or written amendment (where applicable)

4.2 Document precedence (informational map)

In the event of apparent inconsistency, the binding interpretation and precedence are determined by the applicable governing documents. As a general guide only, and without overriding any specific contractual hierarchy set out elsewhere:

- Order Forms / signed amendments (if any) typically prevail for the scope they expressly cover.
- The DPA (where applicable) governs processor/controller allocation and Art. 28-type obligations for business processing relationships.
- The ToS governs the contractual relationship, account rules, subscriptions, billing, suspension/termination, and dispute framework.
- The AUP governs prohibited uses, anti-abuse rules, and enforcement conduct.
- The Astrological Disclaimer governs symbolic, educational, interpretive, and non-professional-advice limitations.
- The AI Notice governs AI-related transparency and limitations.
- The Privacy Policy governs personal data transparency and privacy rights.
- The Cookie Policy governs cookies/tracking governance and consent rules.
- Refund/Billing policies govern operational refund/billing interpretation where published and applicable.

Nothing in this section limits mandatory consumer protections or non-waivable rights under applicable law.

5. High-Level Description of the Service (Non-Contractual Summary)

DashaMap is a digital platform that may provide:

- deterministic calculations and timeline-related functions;
- symbolic and interpretive outputs;
- AI-assisted narrative or explanatory text, where enabled.

DashaMap provides symbolic, educational, and reflective timing insights. It is not a regulated professional advisory service and does not provide medical, psychological, psychiatric, legal, financial, investment, tax, compliance, or employment advice. AI-assisted texts may contain errors and must not be used as the sole basis for important decisions. Any professional reliance or high-impact decision use is governed by the ToS, the Astrological Disclaimer, the AI Notice, and applicable law.

6. Use Restrictions and Enforcement

Rules governing permitted and prohibited uses, anti-abuse limits, security restrictions, and enforcement actions are defined in:

- the Terms of Service (ToS), and
- the Acceptable Use Policy (AUP).

This Legal Notice does not restate or expand those rules, and it should not be read as a substitute for the ToS or AUP. Users should review the ToS and AUP carefully, especially regarding:

- unlawful activity and fraud;
- scraping, crawling, data harvesting, and automation misuse;
- reverse engineering and security testing without authorization;
- bypassing paywalls, quotas, and technical restrictions;
- prohibited content and harmful conduct;
- use of outputs for unauthorized AI training or dataset creation;
- account sharing and unauthorized link sharing;
- high-impact decision restrictions.

7. Intellectual Property, Trademarks, and Identifiers

7.1 Ownership and reservation

Unless expressly stated otherwise in writing, the Service and its components are owned by the Company and/or its licensors. This includes, by way of example:

- software, code, orchestration logic, pipelines, calculation methods, and platform architecture;
- designs, UI/UX layouts, navigation structures, and visual elements;
- documentation, naming, taxonomy, and editorial materials;
- trademarks, logos, trade dress, and distinctive signs;
- proprietary templates, content structures, and protective mechanisms.

7.2 Limited permission to access

Users receive only the limited rights to access and use the Service granted in the ToS and any applicable Order Form. No ownership, license, or rights are granted except as expressly stated in the governing documents.

7.3 Trademarks and attribution

Company trademarks, logos, and trade dress may not be used without prior written permission, except as permitted by law or as expressly allowed by the Company. References to third-party trademarks, names, or logos (if any) remain the property of their respective owners and are used for identification/compatibility purposes only.

7.4 Copyright / IP infringement reporting

If you believe content in the Service infringes copyrights or other intellectual property rights, you may send a notice to: info@globalmountain.group

Subject: "Copyright/IP Notice - DashaMap"

Your notice should include:

- identification of the copyrighted work or right allegedly infringed;
- identification of the allegedly infringing material (URLs, locations, screenshots);
- the basis for your claim and any supporting information;
- your contact details;
- a good-faith statement that the information is accurate;
- proof of ownership or authorization to act on behalf of the right holder, where relevant.

The Company may request additional information and may restrict or remove access where appropriate and lawful. This procedure does not constitute a binding legal determination and does not waive any rights or defenses.

8. Third-Party Providers, Integrations, and External Links

The Service may rely on third-party infrastructure and services, such as hosting, authentication/database, payments, email delivery, AI/LLM providers, analytics, monitoring, CDNs, and open-source components. Such providers may:

- operate under their own terms, policies, and technical constraints;
- change availability or features without notice;
- require replacement, configuration changes, or discontinuation for security, compliance, reliability, or business reasons.

The Company may replace, modify, or disable third-party components when necessary. This does not create agency, partnership, endorsement, or representation between the Company and any third-party provider. External links, if present, are provided for convenience; access is at the user's own risk.

Privacy and data-processing disclosures regarding third-party providers are described in the Privacy Policy and, for business customers where applicable, the DPA.

9. Security Reporting and Vulnerability Disclosure

9.1 Reporting security concerns

To report suspected abuse, fraud, impersonation, security issues, or vulnerabilities, contact: info@globalmountain.group

Subject: "Security Report - DashaMap"

Include, where possible:

- relevant URLs, timestamps, and account identifiers (if known);
- description of the issue and observed behavior;
- reproducible steps;
- screenshots or logs;
- estimated impact and urgency.

9.2 Responsible disclosure (high-level notice)

Any security testing or vulnerability research must be conducted responsibly and must not:

- access data of other users, tenants, or systems;
- exfiltrate or collect datasets or credentials;
- modify or destroy data;
- degrade availability (DoS or stress testing);
- publish sensitive exploit details without coordinated disclosure.

Formal rules and authorization requirements, including any lack of general safe harbor, are set out in the AUP and/or the ToS. Unless expressly authorized in writing, active testing of production systems may be prohibited.

10. Privacy, Cookies, and Data Processing

10.1 Privacy and cookie governance

The Service's personal-data processing practices are described in the Privacy Policy. Cookies and similar technologies are governed by the Cookie Policy.

10.2 Business / white-label processing

If you are a business customer and DashaMap processes personal data on your behalf as a Processor, the DPA may apply where the relevant business, white-label, practitioner, or enterprise feature is enabled or made available under a written agreement. Contact info@globalmountain.group with subject "DPA - DashaMap" for business inquiries or to request the applicable DPA process.

10.3 Privacy requests

Privacy and data subject requests, where applicable, may be submitted to: info@globalmountain.group

Subject: "GDPR Request - DashaMap" (or equivalent)

Identity verification may be required for security and anti-abuse purposes. Processing timeframes are described in the Privacy Policy.

11. No Agency, No Partnership, No Representation

Nothing on this page or in the Service creates an agency, partnership, joint venture, employment, fiduciary, franchise, or representative relationship between users and the Company. Users may not claim to represent the Company or bind the Company toward third parties unless expressly authorized in a written agreement signed by the Company.

12. Governing Law and Jurisdiction (Reference Only)

Governing law, dispute resolution, venue, and jurisdiction are defined in the Terms of Service (ToS), subject to mandatory consumer protections and non-waivable rights under applicable law. This section is for navigation only and does not override the ToS.

13. Language and Translations

This English version is the controlling version of this Legal Notice. Any translations are provided for convenience only. In case of any inconsistency or ambiguity between language versions, the English controlling version prevails, subject to mandatory law.

14. Updates to This Page

We may update this Legal Notice for operational, legal, compliance, corporate, or technical reasons, including changes to:

- corporate identifiers;
- addresses or contact channels;
- the legal document set and published policies;
- security and reporting processes;
- service identification requirements.

The “Last Updated” date indicates the publication date of the current version.
